

SPOT Trace

SPOT Trace simplifies managing mobile inventory from a distance and promotes loss prevention to minimize costs. SPOT Trace offers affordable and practical advanced asset tracking capability. This easy-to-use device alerts you via text or email when your most valuable assets are on the move – whether they're supposed to be or not.

Key Features

- Provides satellite GPS location services and movement alert monitoring, independent of cell towers, radio frequency, and Wi-Fi.
- Receive text and/or email notifications when your SPOT Trace's vibration sensor detects your asset has new movement.
- Configure SPOT Trace to track an asset that is primarily stored on the water
- Receive a notification if SPOT Trace is powered off
- Receive a notification when SPOT Trace's batteries are low
- Set up tracking with variable options of time intervals
- Satellite communications network allows SPOT Trace to work on or off-the-grid
